- 2) made from a coconut of choice
- 3) perfect for hanging out
- 4) a new way to enjoy chocolate and coconut in one bite

RAW COCONUT FLAKES

Raw Coconut Flakes

Breakfast cereals are a commonly used food for breakfast. These foods are generally eaten at times, eaten with milk or, water or eaten directly. Most cereals are processed using sugar and refined carbohydrates so that it increases weight and is unhealthy. Tococo organic Coconut Flakes are processed by drying without preservatives or chemicals. It is suitable to eat in the morning with milk substitutes for corn flakes because it is rich in fiber and contains almost no carbohydrates. By consuming Tococo coconut flakes can help your diet program

COCONUT SAUCE

COCONUT SAUCE

COCONUT SAUCE

Kecap Air kelapa adalah Pemanfaatan Dari buah kelapa. Karena Pemanfaatan Olahan kelapa di Indonesia belum optimal, maka inovasi kecap air kelapa menjadi alternatif mengoptimalkan air kelapa menjadi produk yang berkualitas tetapi tetap terjangkau serta proses pembuatannya yang mudah yaitu kecap manis dan kecap, air kelapa memberikan sensasi gurih pada kecap yang dihasilkan. Kecap air kelapa juga bisa menjadi alternatif pengganti dari kecap kedelai.

Coconut soy sauce is a specialty of the coconut. Since coconut sauce is not optimal in Indonesia, coconut soy sauce innovation is an alternative to optimizing coconut soy water into quality but affordable products and its easy manufacturing process of sweet sauce and soy sauce, the coconut water gives the soy sauce a savory sensation. Soy sauce can also be a substitute for soy sauce.

COCONUT SAP SAUCE
